

ABOUT THE PROJECT

WHY?

Our infrastructure does not support our students' basic educational needs. We need a healthy, safe, sustainable, and 21st century solution to house our students.

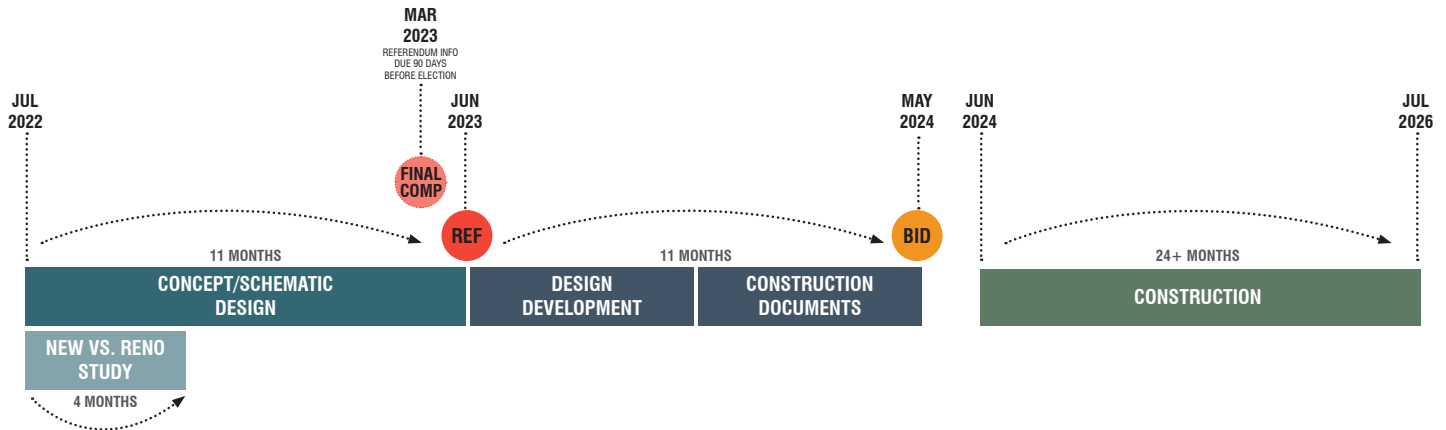

WHY NOW?

There is an urgent need to address the poor conditions of our aging buildings. We need a solution to meet the needs of today's kids and future students. The planning and construction process will take approximately 5 years.

GOALS

- Safety & Security
- Quality Teaching and Learning Environment
- Sustainability / Energy Efficiency
- Flexibility and Connections to the Community

PROPOSED PROJECT TIMELINE

PROJECT NEWS

- **The project website is live!**
Visit it at: www.ConnersEmersonBuildingForOurFuture.com or at the QR code at the bottom of the page.
- **Community Forum #1 is scheduled for September 29th from 6-8PM.** The in-person location is in the Conners Emerson Cafeteria. Those who wish to join remotely can find the link on the project website (go to the "Meetings" tab!)
- **Visioning Sessions #1 and #2 have taken place with the Educational Working Group,** with a lot of great input! **Visioning Session #3 is scheduled for October 11th.**
